### ANOTHER EXHIBITION OF SOUTHERN HATE.

I don't approve of the burning of effigies. Of course, I condemn General Lewis' conduct most entirely, but I think it had been quietly ignored and the people of Atlanta had refused to recognize him socially, and so confined him to the society of the negroes he loves so well, he would have felt much more. And the opportunity would not have been given to the people of the north to make a suffering martyr of him. I am afraid the whole affair will be misinterpreted in the northern papers.

The foregoing paragraph is a statement from one of the state officers of Georgia. It is a little more moderate in tone than some of the articles found in the Atlanta newspapers, but the old spirit of hatred of the negro is still there. It was not the intention of General Lewis to insult the proud spirit of the southern white. It was not his purpose to stir up a race feeling in Atlanta. The fact is he wanted to do simple justice to a very worthy, competent, able young colored man, Mr. Penny, the person in question, presented himself to the civil service commission for examination. The commission had no right to refuse him, and did not; neither had they a right to make his examination a farce. Penny passed a first class examination. He is a young man of splendid character. His accomplishments are not inferior to those of the foremost white men in the city of Atlanta, and when he made application for a postal position, General Lewis could not in common fairness refuse the applicant. He knew this full well, and very properly gave Mr. Penny a responsible place in the postoffice.

The burning in effigy of a one-armed soldier like General Lewis for doing what was clearly his duty to do, is another of the many outrages against human rights that frequently cause the south. The general did not intend to offer an insult to the white bullies of Atlanta. The circumstances that led to the appointment of Mr. Penny are given by Lewis himself:

I then considered the character of the two positions to be filled. That in the money order department would necessarily throw the clerk in contact with the patrons of the office, while that in the registry department is entirely different, the clerk occupying a desk out in the large mailing room away from the public. Realizing the tendency of public opinion, I thought it would be best to give Penny the place in the registry department, where, as I say, he would not come in contact with the patrons of the office. The other position, that in the money order department—I have given to Sturges. Under the civil service law these two men are the only men whom I could possibly appoint to those two positions. I think I did the best thing possible under the circumstances.

Nothing, in all conscience, could be fairer than this. General Lewis could not do otherwise without violating his oath of office; and if the young "lady," who so quickly resigned her place in the registry department felt she was insulted because Mr. Penny had character and ability sufficient to carry him through a rigid examination by the civil service board, then she had a right to depart in peace; but for the people of Atlanta to form themselves into a mob-like gang and burn General Lewis in effigy, is showing the old spirit that brought upon the backs of the slaveholders the lash that crushed their rebellion.

It is well in this connection to remind the readers of the Gazette the vast difference between northern profession and southern practice. Several months ago Mr. Grady, the editor of the Atlanta Constitution, whose paper is doing all it can to inflame the prejudice of the citizens of Atlanta against General Lewis, was invited to deliver an address at a public dinner in Boston. It was a beautiful speech—beautiful without—but underneath it was a damnable spirit of hypocrisy. In that New England dinner speech, Mr. Grady spoke tenderly of the poor negro. He pictured the deep and always abiding affection the south has for the colored race. He tried to make the Boston people believe that the south has more love for the black folk than the north has. It was just such a Pharisee would make; and now when one of Mr. Grady's young colored men, one of blameless life and fine ability, and for whom the south has such overflowing affection gets an office to which he is entitled, then Grady and his newspaper joins the mob-going to burn General Lewis in effigy! That is the love the southern people have for the negro.

It is hoped that General Lewis will never back down, never, never. If every white man and woman in Atlanta outside the postoffice is insulted, let the insult stand, let General Lewis show himself a human Gibraltar.

The Gazette would call the attention of the Recorder to the fact that in the frantic efforts of that journal to prolong the postoffice controversy and retain Clark in office, the "Search Murder Case" is being sadly neglected. If the Recorder desires to know how Mr. Bliss is "Still plotting for the postoffice," the Gazette will state to on Friday evening Mr. Bliss mailed to Mr. Clarkson, under letter postage, copies of the Gazette of Thursday and Friday, followed by a telegram expressing public sentiment. The Washington dispatch referred to by the Recorder says:—

"It is said at the postoffice department that Mr. Bliss has made out a very strong case."

the matter to wire Mr. Bliss on Monday that he did not think any thing could be done to change the decision at Janesville. The people can decide how much there is in "the plot."

If the condemned American woman, Mrs. Maybrick, finally meets death at the hands of the hangman, it will not be for lack of earnest efforts to save her. The way in which the British public have taken up her cause is something unparalleled.

### WHAT ALCOHOL IS USED FOR.

Curious Facts as to Its Universality in Both Arts and Great Industries.

In looking over the books of a Western distilling company the light has been thrown upon the fact that saloonkeepers are not alone the buyers of the alcoholic products. In fact, it has been ascertained that among the best customers of the distilling business are the manufacturers of carriages, fireworks, brass goods of different kinds, various iron establishments, lock manufacturers, celluloid manufacturing companies, watchmakers, woolen manufacturers, cotton mills, varnish manufacturers.

All wholesale and retail druggists and manufacturers of proprietary medicines, nitrate and chloroform manufacturers, chemists engaged in over thirty different pursuits, straw-goods makers, picture-frame makers, perfumers, extract manufacturers, patent medicines, gas companies, all electric light manufacturing companies, all hat and cap companies, furniture manufacturers, compass makers, all preserving of specimen companies, all the hospitals, vinegar men, all tobacco manufacturers, cigarette and cigar men, all the railroad machine shops, all shellac makers, all lead pencil makers, organ and piano manufacturers, ink makers, blacking manufacturers, rubber goods makers, cement makers, brush manufacturers, quinine makers, wall-paper makers, patent leather manufacturers, cutlery men, all the carriage manufacturers, fulminate men, etc.

These are the occupations represented on the books of the manufacturer of alcoholic liquors. There are probably over 1,000 other kinds of industries employing alcoholic preparations in their business. It is one of the prime articles in use, and the only known practically useful solvent of all the essential oils.

There is not a single article of clothing on the human body where alcohol is not used. Socks, trousers, stockings, hats, shirts, collars, cuffs, sleeve buttons, etc., all other buttons, thread-makers, jewelers, etc., all employ it in the progress of their arts.

### To Search for the South Pole.

NEW YORK, Aug. 14.—The old story that Henry Villard will fit out an expedition to the south pole is current again in the street yesterday. The leader of the enterprise is said to be Dr. Neumayer of the German marine observatory at Hamburg. At Mr. Villard's office his secretary said that the reports were true, but that the exact date for Mr. Villard's departure had not yet been decided upon.

### To Equalize Illinois Assessments.

SPRINGFIELD, Ill., Aug. 14.—The state board of equalization met here Tuesday and organized by electing State Auditor Parvey chairman and W. H. Honkle secretary. Auditor Parvey submitted a tabulated statement of the property assessed for 1889, which foots up \$711,514,461. This is an increase over last year's assessment of \$2,209,993.

### Building a Railroad to Escanaba.

ISHPEMING, Mich., Aug. 14.—A large party of surveyors have established headquarters here and have already begun to mark the line of the proposed railroad to Escanaba. Ferdinand Schlesinger's denial that a German syndicate will build the railroad to carry ore from recently acquired mines is not believed by many.

### To Greet President Harrison.

SOUTH PASADENA, Miss., Aug. 14.—President Harrison is expected here Thursday afternoon at 5:30 o'clock. He will stop ten minutes and the citizens will give him a reception. It is probable that he will review the Second brigade of the militia. There will also be a public meeting.

### An Old Told Tale of Dating.

Here is the result of the 230th Grand Monthly Drawing of the Louisiana State Lottery which took place at New Orleans, La., on Tuesday, July 16th, 1889. Y.; five to Clark & Anderson, 604 S. 13th St., Omaha, Neb. Any further information can be had on application to M. A. Dauphin, New Orleans, La.

### A Heroic Consul.

An act of heroism on the part of the United States vice-consul at Kanagawa, Japan, is reported. His name is G. H. Scudmore. On the 15th of June a Japanese subject Hiraocho Michome, jumped overboard from the American steamer City of Rio de Janeiro, with the intention of committing suicide. He did not struggle in the water or make any effort to save himself, and it was with great difficulty that the launch, when he was rescued from the launch, which he was riding was able to get hold of him and haul him alongside. Though very pale and very much fatigued, he said: "I was able to do nothing. I was finally drawn aboard himself, and ringing cheers greeted him as he landed."

### A Strange Apparition.

While Mrs. Charles Rindesbaker of Stockton, Ill., was visiting friends in Chicago, she was sitting talking with a friend one evening when she was startled to see her sister's face at the window. She made a sudden outcry and her companion also saw and recognized the apparition. The next morning she received a telegram from Stockton stating that her sister had died at the very hour and minute that she had seen the face at the window.

## BY STORMS AND FLOODS.

### DESTRUCTION BY THE ELEMENTS IN THE WEST.

Nebraska and Kansas Heavy Sufferers From Rain and Wind—A Day's Record of Casualties.

LINCOLN, Neb., Aug. 14.—Heavy rains have swollen the streams in southeastern Nebraska to an unusual height. Railroad traffic is considerably interrupted and much damage has been done to property. The Atchison & Nebraska railroad is under water between Fifth and Table Rock, and at Tecumseh the rise of the Nebraska river drove many people from their homes. At Beatrice, on the Blue river, the houses on the bottom lands flooded, the people escaping in boats. The new paper mill was destroyed and other buildings were wrecked. The Lincoln & Northwestern tracks have been washed away three miles west of Lincoln. At 10 p. m. one or two Union Pacific bridges between the city and West Lincoln were in great danger. Salt creek and the salt basins are one vast lake, and the water has as yet shown no signs of subsiding. From 300 to 500 houses are flooded, and the people have moved out of danger. The city promptly arranged to shelter and to feed refugees in the ward school buildings, and about four hundred people are being cared for in this city. Many narrow escapes from drowning are reported. There are rumors of one or two deaths, but they can not be verified at this writing.

### HEAVY STORM IN KANSAS.

Great Damage Done to Property in City and Country—Railroad Washouts.

LEAVENWORTH, Kan., Aug. 14.—A terrific rain and wind storm visited Leavenworth and vicinity last night causing great damage to property and crops in the surrounding country. The weather was sultry and cloudy all day yesterday and about 6 o'clock in the evening it grew dark as night and commenced to rain. For over two hours the rain fell in torrents, during which time three and one-half inches of rain fell. The wind blew with violence and lightning prevailed continuously. Over a dozen different houses were struck by lightning in the city and a great deal of property was destroyed. The telephone and electric-light wires were disabled so that they could not be used during the night, and telegraphic communication was cut off until toward morning. All railroads running into the city report washouts, and trains have been lying here all day unable to proceed farther. Farmers report great damage to crops, corn having been laid flat upon the ground, and grain standing in stacks ready to be blown and scattered by the wind.

KANSAS CITY, Mo., Aug. 14.—Reports of the effects of the heavy rain and wind storm are being received. The tracks of every road, except the Union Pacific, running into Kansas City were damaged in some manner by the storm so that all the trains were delayed. Many bridges on the Santa Fe and Southern Kansas roads were destroyed and the heavy iron bridge on the former road at Olathe was washed away. Several trains on these two roads were abandoned. Almost every foot of country between Kansas City and Topeka is covered with water, and the corn crop in that territory is badly damaged. At Atchison several buildings were blown down. At Pals City, Kan., J. M. Booms' barn was struck by lightning and burned.

### A DISASTROUS FIRE.

Thirty-Five Buildings Destroyed in the Little Town of Truckee, Cal.

TRUCKEE, Cal., Aug. 14.—A disastrous fire occurred here at 4:30 o'clock yesterday afternoon, burning everything east of bridge street and north of the railroad to the roundhouse. The American hotel, Irwin's livery stable, the Methodist and Catholic churches, two schoolhouses, Elsie's laundry, the Good Templars hall, and thirty dwellings were consumed. Many families were rendered homeless. The loss is about \$170,000.

### Three Men Meet Death.

LOUISVILLE, Ky., Aug. 14.—The boiler of Thomas Anderson & Co.'s stove factory at Dawson, Ky., exploded about 7 o'clock yesterday morning, killing James Jackson, killed and six others were seriously injured. Laton Meuser and Dennis Purdy have since died. The cause of the explosion is unknown.

### Spokane Falls' Loss \$3,000,000.

PORTLAND, Ore., Aug. 14.—C. L. Polton, assistant general freight agent of the Northern Pacific, who returned to-day from Spokane Falls, says the total value of the property destroyed by the recent fire will exceed \$3,000,000 instead of \$1,000,000. The Northern Pacific's loss will be under \$100,000.

### Car Factory Burned.

HUNTINGTON, Pa., Aug. 14.—Fire last night destroyed the erecting and machine shops of the Huntington Iron Manufacturing company, together with thirty cars in various stages of completion, entailing a loss of about \$30,000 insured. The plant is owned by New York capitalists.

### Costly Barn and Contents.

CINCINNATI, Ohio, Aug. 14.—The barn of C. S. Pragg of Avondale was burned this morning. It was an expensive structure, and contained costly carriages, etc., making a total loss of \$30,000. The horses were all saved.

### A VICTORY FOR ARMOUR.

MINNESOTA JUDGES PRONOUNCE THE DRESSED MEAT CASE A LOSS FOR THE DEFENSE. DULUTH, Minn., Aug. 14.—At the session of the Minnesota Legislature last winter one of the most important measures adopted was the celebrated meat inspection law, providing for the inspection of meat on the hoof. At the time the law was passed there was a good deal of feeling against it as an unconstitutional measure. Yesterday Air E. Christian, the local manager of the Armour company, acting under orders from the head office in Chicago, began selling Chicago dressed meats here. He was at once arrested and fined \$50. Refusing to pay this fine he was committed to the county jail, but later was permitted to give bond until a writ of habeas corpus could be argued and a decision rendered. The argument being set for this morning.

### Money to loan by D. Conger.

May Fever. I have been a periodical sufferer from fever since the summer of 1879, and until I used Ely's Cream Balm was never able to find relief. I can truthfully say that Cream Balm cured me. I regard it as of great value and would not be without it during the hay fever season.—L. M. George, Birmingham, N. Y.

### CITY TAXES.

CITY TREASURER'S OFFICE. Notice is hereby given that the annual warrant for the collection of the city taxes for the year 1889 is now in my hands, and that I will receive said taxes at my office in this city until the 31st day of September next, after which I shall proceed to collect the same as the law directs.

Dated August 13th, 1889.

M. MURPHY, Treasurer of the City of Janesville.

## THE SITUATION CRITICAL.

Another Outbreak Among the Huns in the Coke Regions Hourly Expected.

PITTSBURG, Pa., Aug. 14.—While all the advice indicates that there has been no rioting in the coke region since Saturday matters are considered to be in an extremely precarious condition, and an outbreak of the Hungarians at any time will not surprise the operators.

The principal points of disturbance are at the works along Sawickley creek. At the works of Moore & Co. and the Hoehn company the Hungarians are still drinking and are in their ugliest mood. Last night four Hungarians of the Mammoth works were arrested, charged with conspiracy and inciting riot, and were brought to Greensburg and committed to jail.

Superintendent Ramsey of the Standard works was at Greensburg last night and on Friday the situation in that region is anything but encouraging. The men at work in that locality are in constant fear lest the savage Hungarians descend upon them.

### Gov. Fifer and the Illinois Miners.

CHICAGO, Aug. 14.—Gov. Fifer arrived in the city early Tuesday morning. A portion of the forenoon was spent in consultation with Dr. F. H. Wines on the subject of the trouble among the miners in the Springfield Valley and Joliet districts.

Gov. Fifer has endeavored to induce W. B. Scott, J. F. Joy and other eastern barons in the matter, and it is hoped that they will be here to attend the conference on Friday, though they have expressed no desire to do so in straightening matters. Beyond a possibility that the operators will abandon the obnoxious practice of paying their men with store orders, instead of currency, little advance has been made and the Governor is well nigh discouraged over any prospects of settlement.

### Pittsburg Iron-Workers Out.

PITTSBURG, Pa., Aug. 14.—Seven hundred have gone out on a strike at Philip Nimitz & Co.'s Silgo mills. For some time the men have been working non-union made iron, although objecting to do so. No open revolt had occurred, however, until the present instance. The men Saturday decided not to work any more of the non-union iron, and the mill committee was requested to inform the superintendent that if they were asked to work any more of the objectionable iron from that would be a strike. The firm refused to withdraw the non-union iron and the strike was ordered.

### THE DECREE IS ANNULLED.

Judge Bookstaver's Decision in the Flack Divorce Suit.

NEW YORK, Aug. 14.—The decree of absolute divorce granted Mary E. Flack from her husband, James A. Flack, sheriff of this county, was today by the petition annulled, and all the proceedings before the referee were set aside.

An order to this effect was granted by Judge Bookstaver in the Court of Common Pleas. In her affidavit Mrs. Flack stated that she never applied for a divorce, and first learned of the granting of the decree from a newspaper reporter. In annulling the decree Judge Bookstaver said that the judge who granted it, stated that the developments disclosed a most remarkable state of affairs.

### FORESTERS AT MINNEAPOLIS.

Four Hundred Delegates at the Annual Convention.

MINNEAPOLIS, Minn., Aug. 14.—The subsidiary high court of the Ancient Order of Foresters of the United States was called to order at 9:30 o'clock Tuesday morning by High Subordinate Chief Ranger M. Colborn of Chicago. The morning's session was devoted to the presentation of credentials. After the appointment of the proper committee an adjournment was taken to await the report of the delegates.

### STILL FINDING BODIES.

More Victims of the Johnston Flood Being Discovered Daily.

JOHNSTOWN, Pa., Aug. 14.—On an average about twenty bodies found every day during the last week. There are undoubtedly a great many more in the cellars all over town and at the present rate of cleaning up they will not all be exhumed this year. Two bodies that were recovered to-day have been identified as Evan Hughes and Miss Martha Stryer. The trunk of Florence Mearns of San Francisco was taken up by the Pennsylvania railroad authorities. They also forwarded the valise belonging to Miss Bryan to Philadelphia.

**FROM DESPAIR TO JOY.**

**The Painful Story of a Lascivious, Lazy, and Miserable Man, Finally Repentant.**

Mrs. Morton D. Harlan, residing at No. 55 25th Street, New York City, has passed away a most wonderful experimenter. Mrs. Harlan had a happy home and through her devotion to her home duties over-taxed her strength. She had depressed feelings, entire lack of energy in life, and finally a cough at night and morning which grew worse each day. Upon looking in the glass she saw dark circles under her eyes and noticed that she was getting thinner and losing interest in life. This painful state of things continued for some time until finally she became so weak she could not attend to her duties and was confined to her bed the greater part of the time. One day Mrs. Harlan's very dear friend S. Willard called and was amazed to see how thin and faded. Two bright hectic spots on each cheek, her lips were blue, her face pinched and drawn, and there was a weary look in her eyes. Mrs. Harlan knew a meat consumption and her heart was broken for fear that she had earned a medical use of an English Remedy.

Her consumption was so advanced that the little effect could be seen, so that an invalid had to be made, but by degrees Mrs. Harlan began to regain her strength. At last, after a perfect health, then her hope, and in her health and strength, she was able to perform a perfect physical condition, wholly as a result of the use of Dr. A. C. Remedy for Consumption.

The lesson of this simple story should be plain all. No man or woman can afford to neglect their health. It is a very well known fact that it is no slight but which becomes so terrible when taken in time. This Great Remedy has

—A five-dollar prize given away at Lappin's Opera House to-night.

—Inspection of Light Infantry on Monday evening, August 19.

—"Queen of the Seasons" at Lappin's Opera House August 27 and 28.

—Two drinks were given five days apiece by Judge Patterson to-day.

—Badger Council, Royal Arcanum, assemble in regular meeting this evening.

—Scotch games will begin promptly at ten o'clock at the fair grounds to-morrow.

—Miss Hattie Irving as "Mountain Pink" at Lappin's Opera House to-night.

—Mr. G. A. Shurtliff has the ice cream privilege for the Caledonian picnic to-morrow.

—The Woman's Relief Workers met with Mrs. A. D. Burdick, yesterday afternoon.

—Ed. Horn found a valuable pearl in Rock River to-day. Let's have a little "boom" of our own.

—Conrad Brothers recently sold 300 cases of '88 tobacco to Baltimore and Philadelphia parties.

—Hopkins & Son will dedicate again to-morrow evening. Why not convert the barn into a dancing hall, there might be money in it?

—The amusements at the Caledonian picnic to-morrow will eclipse anything ever seen in the city.

—Wisconsin Lodge No. 14, O. O. F., occupy Odd Fellows hall this evening—regular weekly meeting.

—Sovereign's Fantasies and Equine Paradox passed through the city en route to Madison, in two special cars this morning.

—There will be two more organ recitals in the series being given by Mrs. J. W. Bintliff. The next one will be on Tuesday evening, August 20th.

—Regular monthly pay day of the Loan, Building and Savings Association on Monday, August 19. Stockholders will please remember the date.

—Washington Camp No. 1, Patriotic Sons of America, assemble in regular weekly meeting this evening—lodge room in the Judd block, North Main street.

—An elegant line of Sprague Giant frame umbrellas has just been received at J. L. Ford's. They are beautiful, and for strength and durability they are unexcelled.

—Following are the finance committee of the bridge raising excursion: Leod H. Becker, George M. McKee, A. P. Barnham, B. H. Parker and R. Valcutt.

—There will be a Presbyterian social at the residence of Mr. James Mount in the town of Harmony, Friday evening, August 16. Further particulars will be given later.

—Mrs. J. M. Aiden is celebrating her seventy-eighth birthday anniversary this afternoon, by entertaining a number of elderly ladies at her home on North Main street.

—A box of La Belle cigars will be given by (Prof.) Fountain Cigar store to the Scotchman knocking the most dolls down in fifteen throws at the Scotch picnic to-morrow.

—Oshkosh is 103 miles from Janesville. If you join the Conductor's excursion, the fare for the round trip will be only \$1.50. Don't fail to attend. You will have a good time.

—A party of "Sunrise" campers visited the city this morning. It would take a good deal to convince these people that there is any place like "Sunrise" Point on the face of the earth.

—The Platter Bros. of the town of Harmony, started up their new threshing last Thursday, at Thos. Edden's and did magnificent work. Mr. Edden gives them a first-class recommendation.

—Mr. John O. Johnson has in stock a fine line of fall and winter suitings which he is prepared to make up to order at low prices. Call and examine goods at 61 1/2 East Milwaukee street.

—Funeral services of the infant son of Mr. and Mrs. August Kahlhoff will be held at the family residence, 304 South Academy street, to-morrow afternoon at 2 o'clock, Rev. M. Albrecht officiating.

—The game of ball between the third ward boys and the Milton nine yesterday resulted in a victory for the third ward the score being 21 to 20. The boys returned last evening in the best of spirits.

—Manager Carpenter informed a reporter of the Gazette this afternoon that the office of the Western Union Telegraph Company would close at 8:30 o'clock each evening until further notice.

—The Harrison & Morton Benevolent Association will give a lawn social at Mr. and Mrs. William C. Oland's, 54 Lincoln street, on Friday evening. Ice cream and cake will be served. A good time is assured all who attend.

—Benjamin Thomas was brought before Judge Patterson to-day for vagrancy, and sentenced to the county jail for ninety days. The execution of the sentence was suspended in case Thomas would leave the city within 20 minutes.

—Mr. John Mills, father of Mills Bros., was badly injured this morning by falling from a wagon. The accident was caused by the breaking of a harness. Mr. Mills' shoulder was dislocated and some bones were broken. He will probably be confined to the house some weeks.

—T. F. Williams & Co. are erecting a large double engine and upright boiler manufactory at Beloit. The building which is being built of brick, is 185x80 feet. In beginning, they will employ about 100 hands. This will utilize about half their facilities.

—The ice cream social which was to be given at the home of Mr. and Mrs. Wm. C. Oland, 54 Lincoln street, last evening, by the Harrison & Morton Benevolent Association, was postponed on account of the rain until Friday evening August 16. Remember the change of date.

—"The sidewalks in many parts of the city are a disgrace to the city," remarked a prominent citizen of the Gazette reporter this morning. "Nearly every city in the state while it may be far behind Janesville in many other things, can eclipse this city on the condition of its sidewalks. Taxpayers would not only find it a means of safety to themselves but

very much cheaper in the end to see to it that the sidewalks are kept in proper repair."

—Several citizens of Brodhead came to the city this morning with specimens of pearls from the Sugar River. They gave them to some of our jewelers for examination, but did not receive much encouragement, as probably not more than one out of five hundred of the specimens are of such a shape that they would be of much use to the trade. They are present a scraggly appearance such as is not found in the genuine salt water article.

—Alderman Charles Horn was out on a chicken hunt yesterday. He traveled a distance of about twenty miles and returned home "weary and forlorn," without a bird. He doesn't care so much about the tramp, but it is very probable that he will bring up a resolution at the next farmers' convention, to abolish wire fences, at least until clothing is cheaper, for a fellow can't afford to go hunting more than once a year in this age of barb wire fences, unless he has unusual good luck in the field.

—Alice, one year old daughter of Mr. and Mrs. Thomas Frost, Milwaukee avenue, died yesterday afternoon at 1:30 o'clock, of cholera infantum. The funeral services were conducted by Rev. Father Roche at St. Mary's church this afternoon at 1:30 o'clock, and the remains were taken to Beloit for burial. This is the second child whom it has been their misfortune to lose with this same disease within a week's time. The parents, who are nearly broken hearted, are assured of the kindly sympathy of all.

—An interesting assault and battery case came up before Judge Patterson this afternoon. Two Germans were implicated. The defendant was Frank Churchill, of the town of Porter. It seems that a fellow by the name of Utzio lives in Churchill's house. Hard feelings arose on account of some petty disputes. Churchill accused Utzio of driving across his cornfield, Utzio said, "I will drive on dot corn field as much as I d—m please," and went at Churchill who tried to defend himself with a stick. An attempt was made by the court to settle the matter, but the case was finally adjourned until Aug. 20.

—The Modern Woodmen, their wives, children and friends are out in full force to-day. The order is quite largely represented from Beloit and Whitewater. Considering the threatening weather of the morning the attendance is large. The steamer Enterprise conveyed one load to Crystal Springs, this morning, and this afternoon the boats have been kept busy conveying passengers to the grounds. J. O. Root, of Elgin, Head Counsel of Modern Woodmen of America, was present and made a very able address. Dancing was commenced at four o'clock and will continue during the entire evening. Besides this there were various games and sports. Everybody is having a good time and the picnic is voted a grand success.

—Some of the members of the N. O. W. Club had a romantic experience last evening. Captain Scholz left with the first load at eight o'clock. When about half way to the park they found themselves in the midst of a heavy thunder storm. The rain came down in torrents and the wind blew such a gale that the captain was obliged to stop the boat right in the middle of the river until the storm passed away. It didn't interfere with any of the passengers, however, as the members of the club were bound to have a good time whether it was pleasant or not. The boat reached Burr Springs at nine o'clock. The second boat left the city at 9:30 and was well loaded with passengers. The spacious hall at Burr Springs had been secured for the occasion. The clouds cleared away by ten o'clock and the many dancers kept things lively in that vicinity until long after midnight. Smith & Anderson furnished the music.

**MUSICAL.**  
GRAND ORGAN RECITAL.

The third of the series of organ recitals by Mrs. J. W. Bintliff was given at the Congregational church last night to an appreciative audience.

The programme was replete in choice selections and of pleasing variety; and was really a genuine period of rare enjoyment to all those who were fortunate enough to have been in attendance. It is a well established fact that a purely instrumental offering to an audience must needs possess an unusual degree of merit both in performer and music to win the hearts of the public and keep them from being fidgety. There is hardly an opportunity in these recitals to cultivate or encourage restlessness. To the contrary, one finds something new and sparkling in each succeeding piece until the final is reached. There is a decision and precision, coupled with artistic phrase and finish in Mrs. Bintliff's performance which at once wins recognition and appreciation from her auditors. To interpret intelligently is an endless study, and as is varied by musicians as the hues of rainbows. In these organ recitals the audience is given an excellent chance to both comprehend and enjoy as well as being instructed. Among the numbers, rendered last night which were particularly fine might be mentioned, Nocturne by Mendelssohn-Warren; Andante in F. Wely; Fledgling March, Teilmann, arranged by Clarence Fedy. The whole programme was good, but these last works were really very "catchy," to use a little parlance.

**Does the Earth Really Move?**  
Science says that it does, but we cannot help wondering sometimes if there isn't some mistake about it, when we see how the building of certain old structures to their sturdy and antiquated ideas. It was believed once that consumption was incurable, and although it has been clearly demonstrated that it is not, thousands of old-time physicians close their eyes and put their hands to their ears and refuse to abandon the theory. But for all that the world moves on, and Dr. Pierce's Golden Medical Discovery continues to rescue sufferers from consumptive graves. It is a sure cure for this dreadful disease, if taken in time. All scrofulous diseases—and consumption is included in the list—yield to it.

**THE WOMAN'S EXCHANGE.**  
THE REASONS WHY IT WILL PERMANENTLY CLOSE.

It has already been announced that the Woman's Industrial Exchange will soon close, for the lack of means to conduct the business. The managers, in addition to what has already been stated to the public through the press, desire to offer a few words more, in part to answer frequent inquiries. While the receipts, as previously stated, for the last five months, amounted to \$873.77, only ten per cent of the amount has been retained by the exchange, the balance being received by depositors, the greater portion of whom were dependent upon their own efforts for support and to whom the amount thus obtained was of much importance. It will readily be seen that the amount retained by the exchange has been quite inadequate to paying rent, clerk, fuel and other necessary expenses, and because of this, the enterprise so benevolent in its purpose and results must be abandoned. The managers in relinquishing this cherished enterprise, desire to express their appreciation of the generous favors received in gratuitous advertising and kindly notices in behalf of the Exchange, on the part of the press of the city, as well as to the many individuals who, appreciating the really beneficial character of our work have generously given words of encouragement from time to time. The board of managers also desire to recognize in this public manner their indebtedness to Mrs. C. A. Hunt for the zeal and interest she has manifested in the conduct of the Exchange, although her remuneration has been far from adequate to her efforts. In regretfully considering an enterprise fraught with so much of genuine benevolence, the managers can but hope, that ere long, the good people of this city will renew the work and carry it on to success, as it has been done in other cities, and with all the blessings upon it, that its purpose desires.

**THE WEATHER.**  
At seven o'clock this morning the thermometer indicated 62 degrees above zero. Cloudy with north wind. At one o'clock p. m. the register was 73 degrees above zero. Cloudy with north wind. For the corresponding hours one year ago the register was 61 and 73 degrees above zero.

## THE ROCK RIVER BRIDGE.

The Plans to Raise the Bridge for the Passage of Boats.

GRAND PICNIC AND DANCE.

To be held on Tuesday for the Purpose of Raising Funds.

—the Committees

A meeting of citizens was held last evening at the rooms of the Business Men's Association, for the purpose of considering the question of raising the Rock River bridge a sufficient height to allow the free passage of steamboats, up and down the river. The attendance was quite large and enthusiastic. Richard Valentine presided, and O. H. Brand was appointed secretary.

Captain Phry Norcross stated the object of the meeting was to consider the question of raising the new four-mile bridge in the town of Janesville. The present bridge is seven and a half feet above the surface of the water. It was thought that the steamer Enterprise could go under, but it was found that it would not. Two or three schemes had been presented for raising funds to have the bridge raised, but none of them had been adopted. He would like to hear from some members of the committee, and called on the Hon. Fenner Kimball.

Mr. Kimball said that when the committee went up to examine the bridge they thought a two foot raise would be sufficient, but that would not allow the Billie Burr or Mayflower to go under. To raise it four feet would require nine hundred cords of stone at a cost of \$475, and the filling in and salary of the superintendent would make it \$735. That would make the bridge eleven and one half feet above the level of the water when the water was even with the splash boards at the dam. The Enterprise required nine feet and the Billie Burr eleven feet. Janesville could not sit idly by and let this bridge be put down. It was not for to-day nor for to-morrow, but for a lifetime. Janesville was working for a reputation as a summer resort and it was to her interest to have some places which could draw visitors, which other cities could not boast. He endeavored to impress on those present the value of establishing camping grounds on the river bank. Janesville had neglected some good opportunities in the past, for instance the purchase of the Doe property on West Milwaukee street, to be converted into a public park. It would be a wonderful advertisement of the city's taste if the stranger on alighting from the train could see a beautiful park the first thing. He would be willing to be one of thirty to raise the whole amount if it could be secured in no other manner. He had always been in favor of public improvement. There was better use for money than putting it down in the pocket. It was not for himself alone that he desired this enterprise to go through. He could be here but a few years more; but for the community at large. He did not want to be considered an old fogey but in the way of public improvements, and he would stand by them to the end. Mr. Kimball's remarks seemed to enthrall the entire assembly, and at the close, with one accord the speaker was heartily applauded.

Chairman Valentine stated that the committee had seen the steambots men. Mr. Griffith would donate his boat for an excursion and give twenty-five dollars to the fund. Capt. Baugholz had stated that if the picnic was held at his grounds he would run his two boats free.

Capt. Phry Norcross moved that a vote be taken of the sense of the meeting as regarded the raising of the money, and that those present were in favor of raising seven hundred dollars.

After some discussion by O. F. Nowlan and others Capt. Norcross's motion was adopted.

On motion, a committee consisting of Messrs. Richard Valentine, Fenner Kimball, H. F. Bliss, Richard Griffiths and Phry Norcross, was appointed to take the matter in charge and appoint sub-committees.

The following committees have been appointed:

Finance—Messrs. Leod H. Becker, George M. McKee, A. P. Barnham, B. H. Parker and Richard Valentine.

Music and Dancing—Messrs. Fenner Kimball, Al. Kavalage and H. D. McKinney.

**GRAND EXCURSION AND PICNIC.**  
The committee appointed by the Business Men's Association last evening, through the courtesy of Captain Richard Griffiths, of the steamer Mayflower, made a trip up the river this morning and took measurements and made estimates concerning the cost of raising the Rock River bridge so as to allow the free passage of boats. In consultation with Supervisor J. L. Bear, the committee decided that if the bridge could be raised three feet it would accommodate the steamers. To accomplish this about \$600.00 will be necessary, and an effort will be made to raise the money by a small day

PICNIC AND EXCURSION  
to Mayflower Park next Tuesday, August 20th. The use of the steamers Billie Burr and Mayflower have been donated for the occasion, and the tickets, which have been placed at 50 cents, will be sold by a committee. The date of the excursion has been changed from Saturday, August 17th, to Tuesday, August 20, to accommodate many people who could not leave their business on Saturday.

Let everybody buy a ticket and turn out to the picnic. The object is of interest to every citizen and should receive the most hearty endorsement. Remember the date and clip in the half dollars, freely.

The bridge must be raised, not in the interest of the steambots men, but in the interest of the city at large. Tuesday, August 20th, is the date. Fifty cents is the price of tickets.

**ATTENTION, LIGHT INFANTRY!**  
The annual inspection of the Janesville Light Infantry will take place next Monday evening, August 19th. Every member is hereby ordered to be at the armory at 8 o'clock, sharp, in full uniform with white gloves. By order  
F. H. KORBELIN, Captain.  
O. B. BARNARD, First Sergeant.

## NEW YORK TOBACCO MARKET.

BUSINESS QUIET—DAMAGE TO CROPT BY STORM AND FLOOD.

Business is enjoying its midsummer vacation. The time for sampling being so near transactions in new seed leaf are deferred till the regular samples will make their appearance. And it is to be hoped that the new leaf will now be sampled strictly under the new rules. It will then be found out that the "black rot" in the Pennsylvania seed can be hushed up! A broker who had occasion to examine a lot of new Pennsylvania seed this week was so struck by the appearance of this disease, that he called it "cancer." Whatever there is of old goods is being picked up by the case. The incessant rains during the past six weeks have at first helped the growth of the new tobacco wonderfully. But the later storms and floods have done a great deal of damage and the '89 seed crop will hardly be as bountiful as it was expected to be.

Topping in Rock county is becoming quite general, and in a few instances the harvest has commenced. The early fields show an unusual heavy growth, and there has never been better prospects for a large and perfect crop at this season of the year. Our farmers are quite elated over the prospects.

Considerable prejudice has heretofore existed among planters against the setting machines. This is being somewhat obliterated by experiments made this year.

J. A. Decker has 25 and Ezra Dillenback 8 acres of tobacco set with the Smith machine. These and many other fields have been shown as good work done as that done by the most careful men. There is a rapidly growing sentiment in favor of machine planting in this vicinity.

**JANESVILLE HAS HONORS.**  
RESULT OF THE TARGET PRACTICE AT CAMP DOUGLAS.

Captain J. B. Doe, Jr., inspector of small arms practice of the First Inf. W. N. G., informs us that, at the late camp practice of the First Regiment, the target practice was enthusiastically presented and with the most satisfactory results. The regimental team selected from those showing the greatest proficiency in both fixed distance and skirmish firing was as follows:

First Lieut. T. J. Rogers, Co. F, Beloit..... 521  
Priv. James Gibson, Co. A, Janesville..... 456  
Corporal H. Tuttle, Co. B, Beloit..... 414  
Private Fred Dustin, Co. E, Beloit..... 399  
Private Wm. P. Ashley, Co. I, Madison..... 396  
Corporal William Lee, Co. I, Madison..... 388  
Private R. Trimble, Co. G, Whitewater..... 378  
Corporal L. L. Richardson, Co. A, Janesville..... 358  
Sergeant Cyrus Pettit, Co. I, Madison..... 329  
Priv. Chas. Richardson, Co. K, Burlington..... 271

These totals are made up of the scores made by each man firing ten shots at 200 yards, ten at 300 yards
